|-----------------------------|---|-------------------------------|---|
| 1 Hokkaido Univ.            | ● Algae   | 29 Kyoto Insti. of Technology | ● Drosophila  |
| 2 Tohoku Univ.              | ● Lotus/Glycine   | 30 Osaka City Univ.           | ● Yeast   |
| 3 Utsunomiya Univ.          | ● Medaka  | 31 Osaka Univ.                | ● Yeast ● Pathogenic bacteria   |
| 4 Gunma Univ.               | ● Pathogenic bacteria   | 32 Osaka Prefecture Univ.     | ● Tomato  |
| 5 Univ. of Tsukuba          | ● Tomato ● Cellular slime molds   | 33 RIKEN BDR                  | ● Cellular slime molds  |
| 6 NIES                      | ● ABS Support   | 34 Kobe Univ.                 | ● Algae   |
| 7 RIKEN BRC                 | ● Algae   | 35 Okayama Univ.              | ● Barley  |
|                             | ● Mice ● Arabidopsis/Cultured plant cells, genes ● General microbes                                   | 36 Hiroshima Univ.            | ● Xenopus tropicalis ● Chrysanthemum ● Yeast  |
|                             | ● Human and animal cells ● DNA material ● Rats ● Cord blood cells for research                        | 37 Yamaguchi Univ.            | ● Paramecium  |
| 8 RIKEN CBS                 | ● Zebrafish   | 38 Kyushu Univ.               | ● Silkworms ● Morning Glory ● Prokaryotes (E.coli, B.subtilis) ● Rice ● ABS Support |
| 9 Tokyo Metropolitan Univ.  | ● ABS Support   | 39 Nagasaki Univ.             | ● Pathogenic eukaryotic microbes  |
| 10 Gakushuin Univ.          | ● Silkworms   | 40 Univ. of Miyazaki          | ● Lotus/Glycine ● Medaka  |
| 11 Meiji Univ.              | ● Tomato  |                               |   |
| 12 The Univ. of Tokyo       | ● Cord blood cells for research ● Rats ● GBIF Japan node  |                               |   |
| 13 Kyorin Univ.             | ● Drosophila  |                               |   |
| 14 TWMU                     | ● C. elegans  |                               |   |
| 15 JALAS                    | ● Human resource development for external verification  |                               |   |
| 16 NMNS                     | ● GBIF Japan node   |                               |   |
| 17 Chiba Univ.              | ● Pathogenic eukaryotic microbes  |                               |   |
| 18 MMBS, The Univ. of Tokyo | ● Ciona intestinalis  |                               |   |
| 19 NIG                      | ● Drosophila ● Rice ● Prokaryotes (E.coli, B.subtilis) ● Zebrafish ● Information center ● ABS Support |                               |   |
| 20 SMRC, Univ. of Tsukuba   | ● Ciona intestinalis  |                               |   |
| 21 Shinshu Univ.            | ● Silkworms   |                               |   |
| 22 NIBB                     | ● Medaka ● Morning Glory  |                               |   |
| 23 NIPS                     | ● Japanese macaques   |                               |   |
| 24 ExCELLS                  | ● Zebrafish   |                               |   |
| 25 PRI, Kyoto Univ.         | ● Japanese macaques   |                               |   |
| 26 Nagoya Univ.             | ● Chicken/Quail   |                               |   |
| 27 Gifu Univ.               | ● Pathogenic bacteria   |                               |   |
| 28 Kyoto Univ.              | ● Rats ● Wheat ● Ciona intestinalis ● GAIN  |                               |   |
